CUSTOMER SUCCESS STORY:

OXFORD CITY SCHOOLS, AL

"Our partnership with AGiRepair has been an answered prayer. We are in our seventh year of 1:1 and I can honestly say that our last year has been the best. We started sending MacBooks with broken screens to AGiRepair to save a few dollars. We were behind on repairs after our fall break. At the time we had been receiving emails from AGiRepair for about six months, but I really didn't see how they could help us. My thoughts have now shifted to, 'what would we do without AGiRepair.' The staff communicates very well, and the repairs are done in a timely manner. If you still aren't convinced, try sending them one repair. You can thank me later."

SCHOOL DISTRICT OF WAUKESHA, WI

"With over 14,000 iPads in student hands, we needed a simple, reliable, and easy-to-manage repair flow. We used a few other repair facilities before choosing AGiRepair. What attracted us to them was their easy to use website to track repairs, and their willingness to communicate with us on individual repairs. We are frequently approached by other repair facilities, but our process and the AGiRepair customer service makes it an easy decision to stay with them. Moving forward, Waukesha has implemented AGiProtect as a way to simplify our process and budgeting even more! Simply put, Waukesha School District is very satisfied with our relationship with AGiRepair and we plan to continue."
